ITEM NO.	RECORD SERIES	TITLE/DESCRIPTION <i>(This Retention Schedule is approved on a space-available basis)</i>	RETENTION PERIOD
1	2000-18	<p>VACCINE FOR CHILDREN PROGRAM-PAPER RECORDS</p> <p>A typical file includes Vaccine Accountability Tally Sheet, Public, State Form Number 49866. A health provider submits monthly by the 10th of the month for vaccines administered during the previous month. This form is used to collect vaccine accountability information required by the federal Vaccines for Children Programs and the state CHIRP Program. All data from the paper forms is entered into a computer with software for the program provided by the federal Centers for Disease Control and Prevention and printed reports can be generated as needed. Any daily modifications are backed-up weekly and the entire system is re-copied at the end of each calendar year. Statistics and extensive demographic information is present and a patient name is optional. Fiscal information pertinent to the grant is located in the Division of Finance of the State Department of Health. Disclosure of these records may be subject to IC 16-41-8-1, (2004 Edition to 2009 Indiana General Assembly) Retention consistent with 410 IAC 16.2-3.1-50, (March 24, 2010 Update)</p>	<p>TRANSFER paper records to the RECORDS CENTER one (1) year after the end of the calendar year. 2	2000-21	<p>SCHOOL PROGRAM</p> <p>Pursuant to IC 20-34-3-1 thru IC 20-34-3-20, 2006 Supplement to 2009 Indiana General Assembly; Indiana schools, including kindergartens and pre-kindergartens, are required to report their annual immunization status. This reporting is done via State Department of Health State Form Numbers 22363, 44455, 48971, 48972 and 48973. These statistical reports are due by November 1st of each year. All information is entered into the Division's computer database by the school name or by city or town. Statistics only are reported and no students are personally identified. No financial data is contained with these records. A copy of the annual financial status report submitted to the federal Centers for Disease Control and Prevention is maintained in the Finance Division of the State Department of Health. Retention partially based on IC 20-34-4-5 and IC 20-34-4-6, (2006 Supplement to 2009 Indiana General Assembly) and consistent with IC 34-13-1-1, (2004 Edition)</p>	<p>DESTROY paper records twelve (12) months after the end of the last reporting year and after verification of data entry. DELETE electronic records ten (10) years after the end of the last reporting year.</p>

3	2000-22	<p>CASA (CLINIC ASSESSMENT SOFTWARE APPLICATION)</p> <p>This primarily-electronic record reports the percentages of clients immunized by a county health department and the client name(s). Reports showing various age levels of immunized clients and other statistics can be printed as needed. The software enables this Program to maintain client identification confidentially. Disclosure of these records may be subject to IC 16-41-8-1, (2004 Edition to 2009 Indiana General Assembly] Retention partially based on IC 34-13-1-1, (2004 Edition)</p>	<p>TRANSFER paper records to the RECORDS CENTER twelve (12) calendar months after the end of the last reporting year and after receipt of STATE BOARD OF ACCOUNTS Audit Report and satisfaction of unsettled charges and after submission of the annual financial status report to the federal CENTERS FOR DISEASE CONTROL AND PREVENTION. DESTROY paper records after an additional three (3) years in the RECORDS CENTER. TOTAL RETENTION of paper records: Four (4) calendar years after the end of the last reporting year and after receipt of STATE BOARD OF ACCOUNTS Audit Report and satisfaction of unsettled charges and after submission of the annual financial status report to the federal CENTERS FOR DISEASE CONTROL AND PREVENTION. 5	2000-30	<p>PERINATAL HEPATITIS B PROGRAM RECORDS</p> <p>A public health provider completes State Form 45057, Perinatal Hepatitis B Screen, and submits the results to the State Department of Health's laboratory, the office of record. A photocopy of this form is submitted to the Immunization Program. Private health providers submit testing results directly to the Immunization Program. Positive test results are entered into Division computers. Data can be retrieved by the case identification number or the patient name. High-risk negative results are followed-up with correspondence and positive cases are tracked until closure. This record is used to track high-risk mothers and to identify infants needing vaccination. These significant medical records of infants can have long-term effects not only on these infants but on the parent(s) and/or other children. The State Department of Health is the sole source of the entire record. Information can be changed or deleted. The federal Centers for Disease Control and Prevention had provided the software via a federal grant. However, as of June 30, 1999, the federal entity had discontinued furnishing hardware and software support. Disclosure of these records may be subject to IC 16-41-8-1, (2004 Edition to 2009 Indiana General Assembly)</p>	<p>DESTROY negative case results paper records after review completion.
