

RECORDS RETENTION AND DISPOSITION SCHEDULE

Transportation, Indiana Department of. Materials Management Division.

ЕM	RECORD	Management Division Division: TITLE/DESCRIPTION	RETENTION PERIOD
ЕМ Ю.	SERIES	(This Retention Schedule is approved on a space-available basis)	RETENTIONTERIOD
	85-100	NON-QUALIFIED GEOTECHNICAL CONSULTANTS	DESTROY after three (3) years.
		Files on those consulting companies which were never	
		qualified to provide consulting services.	
2	85-101	GEOTECHNICAL PROJECTS	BACK UP to Computer Output Microfilm (COM)
		This file tracks the progress of a project and documents	when the road is removed from the roadway
		crucial information relating to the subsurface conditions	system. TRANSFER COM to the INDIANA
		where a road is being built. The projects are sub-filed by	ARCHIVES for permanent archival retention.
		district number, road, or county, etc. The typical file	DELETE electronic records ten (10) years
		generally contains the soils report, drilling report,	after the road has been removed from the
		testing report, engineering reports, final report and	roadway system.
		drawings, correspondence, meeting notes, and copies of	
		itemization of pay quantities. All records are maintained	
		in an Electronic Records Management System. Retention based	
		on IC 34-13-1-1.	
3	85-103	SOIL INFORMATION STORAGE AND RETRIEVAL SYSTEM	BACK UP computer system annually to
		The test, boring logs, and final report data are entered	COMPUTER OUTPUT MICROFICHE (COM). TRANSFE
		into the computer via data input forms.	COM to the INDIANA ARCHIVES for permanent
			archival retention.
4	85-55	EPA HAZARDOUS WASTE	DESTROY training records three (3) years
		As a hazardous waste generator, INDOT must follow	after termination of the employee. (40 CF)
		guidelines promulgated by the U.S. Environmental Protection	265.16 (e)). DESTROY signed copies of
		Agency. Files generally include training records (to	manifests three (3) years after waste has
		document that INDOT personnel have been trained in the	been accepted by the initial transporter
		handling and shipment of hazardous wastes), manifests	(40 CFR 262.40 (a)). DESTROY Biennial
		(waste shipments), annual reports, exception reports, test	Reports three (3) years after report's du
		results, determinations, and waste analyses.	date. (40 CFR 262.40 (b)). DESTROY test
			results, waste analyses, and determinatio
			three (3) years after waste is sent for
			treatment, storage, or disposal. (40 CFR
			262.40 (c)). These retention periods shall
			be extended for the course of an unresolv
			enforcement action, or upon the
			Administrator's request. (40 CFR 262.40
			(d)).
5	85-66	QUALITY SOURCE FILES	DESTROY fifteen (15) years after the sour
		Geologists test quarries on an annual basis by taking	discontinues business with the INDIANA
		production (shows characteristics of the product) and ledge	DEPARTMENT OF TRANSPORTATION.
		samples. Information is entered into the computer, from	
		which a summary sheet is produced. The information is	
		needed to document quarry changes from year to year.	
6	85-69	CONCRETE PLANTS CERTIFICATIONS	DESTROY five (5) years after the plant
		Districts check concrete and hot mix asphalt plants	discontinues business with the INDIANA
		annually.	DEPARTMENT OF TRANSPORTATION.
7	85-74	SEED INSPECTION REPORTS	DESTROY after one (1) year.
		Purdue University conducts tests on grass seed used on	
		roadsides. A summary sheet is prepared for the period	
		covered by the test. A report is valid for only nine (9)	
		months according to IC 15-15-1-40.	
8	85-88	ROAD FILE STUDIES	TRANSFER final report to relinquishee aft
		Studies consist of field studies of a state road done for	the highway has been taken out of the
		the Construction or Maintenance Divisions, to investigate	system. DESTROY raw data upon completion
		problems of a particular road. The file typically contains	the final report.
		test reports data and other raw data, correspondence	
		copies, and a final report. Studies are filed by road	
		number and by contract number. The final report is needed	
		as long as the road is in the system because of the	
		potential for recurring problems.	

9	85-91	LAB WORKBOOKS	DESTROY after three (3) years.
		Each chemist records raw data into these books.	
10	85-93	METHODS FILE	DESTROY when outdated or replaced.
		Procedures and guidelines which a chemist is to follow when	
		performing a test.	
11	85-99	GEOTECHNICAL CONSULTANT QUALIFICATION	DESTROY when consultant goes out of
		Geotechnical consultants must be approved and prequalified	business.
		by INDOT. This section inspects a consultant's operation.	
		File generally contains the original inspections, company	
		dossier and staff resumes, notes, and a copy of the final	
		report.
